

Bowman's Root

Gillenia trifoliata (L.) Britt.

Family:	Rosaceae
Habitat:	Borders, slopes, woodland edge; dry to moist woods, mountains
Color:	White
Height:	2-3 ft
Exposure:	Sun to light shade
Bloom Dates:	May-July
Soil Moisture:	Moist
Soil Quality:	Rich
Garden Uses:	Dry, sunny gardens on slopes, woodland edge.
Notes:	Will grow in a variety of soils, and sun to light shade. Shrubby habit valuable for massing; leaves turn to oranges and yellows in fall. Tough, long-lived and drought tolerant.
