

Thimbleweed

Anemone virginiana L. var. *virginiana*

Family:	Ranunculaceae
Habitat:	Open woods and dry meadows. Higher elevations.
Color:	White
Height:	12-18 in
Exposure:	Full sun to light shade
Bloom Dates:	July
Soil Moisture:	Moist
Soil Quality:	Light
Garden Uses:	Greenery in mountain sunny borders.
Notes:	Flower is not very showy, but thimble-shaped seed heads add interest to the garden. Better on mountain than in valley.
